COMPANY PROFILE

“SAVA” Tomsk Production Company was founded more than 20 years ago on the basis of the Kuzovlevsky greenhouse complex. Today, “SAVA” is a dynamically developing company, which includes own gardens in Siberia and Altai Territory, a scientific laboratory and production, an advanced logistic system, divisions in Moscow and Krasnoyarsk, as well as a chain of company stores. The Company's product range includes over 600 product names. Manufacturing is carried out in strict compliance with Hazard Analysis and Critical Control Points, HACCP.

CORE BUSINESS

Deep processing of wild-growing and garden raw materials

“SAVA” TPC develops the full production cycle: from growing and gathering raw materials to non-waste manufacturing of end products.

Launch of a successful sea-buckthorn gardens project in pristine areas of Altai. An increase in the harvesting volume to 3,000 tons per annum enabled the Company to establish itself as a leader of the Russian and international sea-buckthorn harvesting and processing markets.

Developing intensive and extensive haskap gardens in Tomsk Region with the area of 100 ha and 30 ha, respectively.

B2C. Consumer food products

The Company's products are available in well-known federal and regional retail chains in Russia, as well as exported to 21 country.

“SAVA” TPC annually represents the Tomsk Region at leading exhibitions and events both in Russia and abroad, such as PRODEXPO, SIAL CHINA, CHE, and BioFach. In 2018, the Company was awarded a gold medal at SIAL CHINA (the PRC) for high quality of its products. Every year “SAVA” becomes the award winner at PRODEXPO exhibition. A two-time winner of the “Tastes of Russia” competition in the nomination “Tastes without Limits”.

B2B. Manufacturing semi-finished products for business

At present, “SAVA” cooperates with more than 70 large companies in the confectionery, dairy and ice-cream production industries, as well as develops its own range of gastronomic fillers.

The Company's advantage is its team of R&D professionals, who can develop a perfect solution and support the product launch with due account of individual technological specifics of the customer's equipment.

Advanced methods of monitoring production of fillings and fillers guarantee the sustained quality of end products.

Diet and preventive nutrition

The functional nutrition area has been launched since 2005 and intended for employees working under harmful and extremely harmful working conditions. The Company's product range includes juices and nectars with pectin, vitamin kissels, and cereals. Pursuant to the Order No. 291n of the Russian Ministry of Labor dated May 12, 2022, these products is an equivalent milk substitute.

Some 50 large industrial enterprises of Russia and the neighbouring countries have introduced the products under the World of Health brand into the diet of their employees.

OUR BRANDS

In 2022, “SAVA” TPC organized the first Haskap gastronomic festival.

Over 30 companies participated in the event. At the celebration 2,000 guests tasted the Festival Drink and ice-cream with haskap. Some 30,000 people attended the event.

Starting from 2023 the Haskap gastronomic festival will become a traditional urban celebration in Tomsk.

BERRIES

Fresh berries

SEASONAL
PRODUCT

Fresh haskap

Haskap is the first berry that nature gives us in early summer. It contains a record number of vitamins (A, B1, B2, B6, B9, K, C, P), which are vital to the immune system, nervous system and blood vessels, as well as required to stimulate the gastrointestinal tract.

Quick-frozen berries

Quick-frozen haskap

Thanks to quick (shock) freezing, haskap does not lose its organoleptic properties, taste, nutritional value, and protect our body throughout the year.

Quick-frozen sea-buckthorn

Sea-buckthorn is one of the healthiest berries. Thanks to its high content of healthy ingredients, namely carotenoids, omega 3-6-7-9, and vitamin C, sea-buckthorn is called "the Siberian gold".

SPECIFICATION:

Name	Net weight, kg	Quantity, pcs		Shelf life (months)	Storage temperature
		In pack-age	On pallet		
Fresh berries	0.125	12	504	10 days	+2°C to +8°C
Quick-frozen berries	0.3	10	1,300	9	0°C to -18°C

AIR-DRIED BERRIES

Air-dried berries are whole berries infused with natural syrup and dried using the convection drying technology, which preserves the taste and the basic health properties of berries.

FREEZE-DRIED BERRIES

FREEZE-DRIED BERRIES are a trend on the healthy food shelf. During the sublimation process, the berries are subjected to shock freezing and then vacuum dried. This method helps to preserve the structural integrity of the berries, as well as the taste, aroma and beneficial properties of the natural product.

PINE NUTS

Pine nuts (shelled)

The Siberian pine nuts is considered to be the best in the world for its taste properties, excellent quality, and a high concentration of healthy substances: macro and micro nutrients, vitamins, proteins, carbohydrates, and fats...

We use only selected nuts, which undergo strict quality control: from cone picking to sorting and packing the nuts in hermetically sealed packaging, which protects the product from oxidation, extends its shelf life, and preserves taste and health properties.

TEA DRINK "CHAGA"

Tea drink "CHAGA" "BioNergy"

Chaga is the strongest natural antioxidant among mushrooms and plants known today. Chaga balances the immune system and optimizes the natural disease and infection resistance of the body.

SPECIFICATION:

Name	Net weight, kg/litre	Quantity, pcs		Shelf life (months)	Storage temperature
		In package	On pallet

EXTRA VIRGIN OIL

Pine nut oil

Pine nut oil is a real natural depository of healthy biologically active substances. We get oil by cold pressing of the highest quality nuts, thus preserving all natural benefits. The oil contains proteins, carbohydrates, saturated and unsaturated fatty acids, phosphatides, vitamins A, B1, B2, B3 (PP), E, D, lecithin, essential oils, amino acids, and numerous minerals.

Sea-buckthorn fruit oil

Sea-buckthorn fruit oil is a HEALTH SOURCE containing over 190 biologically available nutrients. Its special feature is that it contains a large number of carotenoids. They contribute to healthy metabolism, good eyesight, as well as help prevent vitamin deficiency.

Sea-buckthorn fruit oil also has a regenerating effect on the skin and mucous membranes, accelerates their epithelization, has an anti-inflammatory effect, and maintains health of nails and hair.

SPECIFICATION:

SIGNATURE HERBAL TEA

Signature herbal tea in filter bags

Signature herbal tea WILD BERRIES

Bright, sweet, with a unique aroma. Wild berries are one of the most favorite flavors. These are lingonberries that were eaten straight from the bush in a sunny meadow. These are hibiscus and rose hips that mom brewed in a thermos in winter. This is a warm home atmosphere when you forget about everything except the delight of the moment.

TEA IN FILTER BAGS

Signature herbal tea TAIGA

A July forest filled with sunbeams, "breathing" with the aromas of pine forest, oregano and juniper. This is where you will find yourself after taking a sip of "Taiga" tea. Be transported back to your childhood, when the trees were big! When a trip to the forest is a fairytale adventure. When a bouquet of wild flowers is for mom. When pine resin is amber, and how it smells.

TEA IN FILTER BAGS

Signature herbal tea SEA-BUCKTHORN

Sea buckthorn is for gourmets. For those who love to savor shades, solving the puzzles of aromas. For whom tea is not on the run, but a wonderful ritual. Who loves long conversations and hugs, a soft blanket and the warmth of a fireplace. Assemble a drink to your taste, adding sea buckthorn syrup to natural herbal tea.

TEA IN FILTER BAGS

JAMS MASTER JAM

MASTER JAM

The new line of MASTER JAM jams is manufactured using the modern fluffing technology developed by experts to achieve tenderer texture and taste while maintaining the benefits of berries and fruits.

All jams are based on fluffy mashed apples collected from the Altai gardens.

Tender MASTER JAM with berry and fruit pieces is a perfect supplement to cottage cheese patties, pancakes, toasts, as well as a basis for desserts and pastries.

Bilberry and cherry

A harmonious combination of favorite berries, delicate bilberries, and juicy cherries form an authentic taste that everyone will love.

Strawberry

The yummiest strawberry jam is made of sweet berry varieties. The summer taste of sweet smelling strawberry will delight and brighten up any breakfast.

Mango and apricot

The tropical taste of mango combined with Southern apricot will lift your spirits and energize you for the whole day.

FRUIT AND BERRY SAUCES

A new look at meat!

Haskap sauce with rosemary and juniper

Spicy juniper shades combined with refreshing rosemary and juicy haskap reveal a refined taste to leave nobody indifferent.

Cranberry sauce with orange, ginger, and cinnamon

This sauce combines the sourness of cranberries, the sweetness of orange, the fresh ginger flavor, and light cinnamon hints.

Sea-buckthorn sauce with pineapple and chili

An unusual taste combination of juicy sea-buckthorn and exotic pineapple will give a special, delicate flavor to any dish on your table and turn your meal into an unforgettable holiday dinner.

Lingonberry sauce with pear and chili

An unforgettable combination of rich wild lingonberries with juicy pear bits. Sour berries complement and balance the sweetness of the pear, creating a delicate flavor.

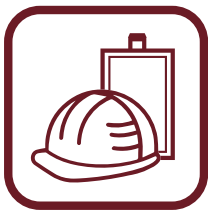

Raspberry sauce with orange and chili

The one and only combination of raspberry, hot chili pepper and orange creates a new rich taste. A refreshing raspberry sauce flavored with tiny candied oranges will unleash the flavor of the most exquisite dishes.

CONTRACT MANUFACTURING

OPERATING PROCEDURE IN THE FRAMEWORK OF CONTRACT MANUFACTURING

STEP 1	Fill in the application at our corporate website. Our employee will get in touch with you within 2 working days to clarify the application parameters.
STEP 2	The area manager as per your application will offer optimal product adjustment based on the expert analysis.
STEP 3	Upon approval of parameters, we will develop a quotation for you. The development period depends on the availability of information about the new types of raw materials and the complexity of the product formulation.
STEP 4	The contract will be signed, and the specifications will be coordinated upon approval of the selected sample. The terms and commercial conditions of the manufacturing are set individually for each application.
STEP 5	The product will be recorded to the Company's production schedule. The responsible manager will inform you about the specified delivery date and the date of the actual product release.
STEP 6	We will deliver your product to any region of Russia, as well as abroad.
